An Exploration of Trance in Relationship to Mental Mediumship

This workshop is designed to assist the students who are working on their mental mediumship and who wish to develop a stronger connection to those in the Spirit World. You will be provided with both a basic understanding of trance as well as given exercises to help you move into a trance state will be explored and practiced. Students will have an opportunity to experience a trance state with the hope that they may experience more fully the process of spirit working through them. The students will also be able to witness what happens with other classmates as well as the teacher while they move into the state of trance. Working with trance may help the student better understand the blending of energy from the spirit communicator. In effect this can help the student's mental mediumship become clearer. Students should have an interest in trance mediumship, be willing to put in the effort by participating and have a level of excitement for the process as it unfolds.

Disclaimer: By taking this class you are confirming that you are not presently taking any chronic pain medication, you have not consumed alcohol in the past 24 hours and that you suffer from no mental or emotional disorder.

Evening Demonstration of Trance 7:00 pm – 8:30 pm

A Conversation with Spirit

What a wonderful opportunity to be able witness a demonstration of Trance Mediumship. At the beginning of this evening you will be given background information relating to Trance Mediumship. Then we will sit in séance to allow for Richard's demonstration of Trance. During that time there may be a philosophical conversation with one of his spiritual teachers, there may be an opportunity to ask a question of his spiritual teacher and other aspects of mediumship may be displayed. All of this will depend on the group energetic and what the spiritual teacher feels is appropriate for the evening. Come to "A Conversation with Spirit" for this uplifting experience!
