Psychic Awareness- Reading People, Places, and Things

Darren walked into a Spiritualist Church at the age of 17 with the intention of going once and never again. What took him there was a desire to understand the 'lights' he had been seeing around people for the last 4 years which seemed to come on as a result of painful headaches that he had been having during that time. During that evening, he joined in the open circle and watched various people (whom he admits to thinking at the time were all "mental"), talking to other people about their "granddad's rhubarb" and other such seemingly trivial pieces of information. He felt an urge to leave as it appeared that he wouldn't get any answers from what he had seen. It was at that point that a lady came over and proceeded to deliver a message to him about how psychic he appeared to be, how he 'saw' lights around people which she described as an aura, and how the Spirit World had work in store for him. She then made a prediction that within a year he would stand on the platform and do the work she did. Since 1995 Darren has demonstrated his gift in Spiritualist churches, public halls, and theatres. His gift has taken him to all counties in the UK as well as to Portugal, Spain, Gibraltar, Norway, Finland, Switzerland, Germany, Iceland, Canada, and the US. He has written for and has been featured in several well-respected esoteric publications including Two Worlds and Psychic News, and in the last couple of years has turned down three offers of work on high profile TV programmes, feeling that his work would be seen as purely entertainment and not for its true meaning.

Such is his accuracy, private tutorials and Mediumship assessments with Darren are in great demand and his public demonstrations often sell out well before the date of the demonstration. He has a desire to remind people through his own experiences of life, and through his connection to Spirit, that we are all Divine in origin and how we can attune to that source of love to help us to heal. Darren also has a book published - [From Innocence to Inner Sense](#).

The Four Relationships of Mediumship – A 2-day Advanced Event Dec 11- 12th 10 am – 5 pm- Registration cut off on December 8th 10 pm Eastern time- IN PERSON ONLY \$285.00

Mediumship does not happen in isolation. When we work with another person or demonstrate to a group, we are constantly moving within many relationships; the relationship with ourselves, the communicator, the recipient and the audience. The quality of our mediumship can be greatly influenced by how well we understand, maintain, and move amongst these relationships. In this 2-day Advanced Workshop, we will explore these four important relationships and how greater awareness of these can bring maturity, sensitivity, and depth to your work. Through practical exercise, discussion, observation and opportunity, we will work with each of the following relationships and then bring it all together. This course is intended for those mediums who understand the foundations of evidential mediumship and are consistent in their connection with the Spirit World. This is not an introductory course on Mediumship.

THE RELATIONSHIP WITH SELF: How our own thoughts, expectations, emotions, confidence, and need for an outcome can influence communication. We will explore greater self-awareness while remaining available to Spirit.

THE RELATIONSHIP WITH COMMUNICATOR: Moving to develop a clearer sense of the individual communicating by considering the presence, personality, intention, and the unfolding relationship between medium and communicator. This will allow communication to become something experienced rather than simply reported.

THE RELATIONSHIP WITH THE RECIPIENT: Mediumship is communication with someone; not simple information delivered at them. We will explore listening, responsiveness, emotional sensitivity and how to remain connected to the recipient without allowing their reactions to direct or distort communication.

THE RELATIONSHIP WITH THE AUDIENCE: Public mediumship asks us to hold a wider relationship and in that, we will explore how we remain connected with the room while giving our attention to one recipient. We will look at how we communicate in a way that allows an audience to remain involved, interested, and emotionally connected to the unfolding demonstration.

Psychic Awareness- Reading People, Places, and Things Dec 13th 1-5 pm - Registration cut off Dec 8th 10 pm Eastern - IN PERSON ONLY \$80.00

Psychic work is the ability to become aware of information through sensitivity, observation, and perception beyond what is immediately obvious. In this 4-hour practical class, we will explore the different ways psychic awareness can be used to perceive people, places, and things which will help the student to understand how information is received, interpreted and communicated. We will look at a range of psychic disciplines, including Psychometry *** **Photo Reading** *****Remote Viewing*******Energy Reading** *** **Aura Work**

Students will be encouraged to recognize their own psychic language and become more confident in communicating what they receive without exaggerating the information or trying to make the information fit. This class will be practical and experiential, with exercises designed to explore the different ways sensitivity can be directed toward people, places, and objects and developing a clearer understanding of how psychic perception works through you. This is best suited for students who have some experience of psychic development and would like to strengthen that ability.
